- Problem-Solving ● ● ● ●
- Mathematics ● ● ● ●

Soft Skills

- Time Management ● ● ● ●
- Flexibility ● ● ● ●
- English ● ● ● ●
- Communication ● ● ● ●
- Teamwork/Leadership ● ● ● ●

About Me

My name is Damien Bogan. I was born and raised in Auburn, Alabama, and I am twenty years old. I enjoy spending time with my friends, studying, and participating in college activities. I recently received my Associate in Science degree from Southern Union State Community College. I'm currently a mathematics major at Auburn University in Montgomery.

Working Experience

- May 2022 - May 2023 **Work-Study Program** Southern Union State Community College
Work-Study is a program that allows students to work on campus while still studying for coursework. As a work-study student, my job was to open and close the student center. Many tasks included setting up the coffee maker, turning on and off the televisions, setting up the pool table and ping pong table, arranging video games, and cleaning around the student center.

Education

Undergraduate Research

- May 2023 - July 2023 **2023 REU Program in Mathematics** Auburn University
Under the Research Experience for Undergraduates program, students can conduct research on any topic related to their field of study. My program experience allowed me to explore different areas of math while also presenting a presentation in front of program students and staff members. The program lasted about two months and taught us about the various branches of mathematics and how they apply in today's world.

Undergraduate Study

- August 2023 - Present **B.S. in Mathematics** Auburn University at Montgomery
